policySumm

The screenshot shows the pgAdmin3 interface on a Mac OS X desktop. The main window displays a table of data from a PostgreSQL database named 'mondial'. The table has columns: name, province, name, and population. The data includes entries for countries like Tokelau, Tonga, Trinidad and Tobago, Tunisia, Turkey, Turkmenistan, Tuvalu, Uganda, Ukraine, United Arab Emirates, United Kingdom, United States, Uruguay, Uzbekistan, Vanuatu, Venezuela, Vietnam, Virgin Islands, West Bank, Western Sahara, Yemen, Zaire, Zambia, and Zimbabwe. The SQL Editor pane on the right shows a query that finds the city with the highest population within each country. The status bar at the bottom indicates 211 rows and 216 msec. The desktop background shows various application icons in the Dock.
